

Connecting the world.

## High Speed Business Internet

### Offering Scalable, Reliable Bandwidth For Your Business

The amount of bandwidth you have at your disposal determines how smoothly your business runs and how quickly your employees can access the information they need.

### Is Bonded T1 Right For My Business?

Nowadays, broadband internet comes in several tiers, from dial up all the way to a Bonded T1 line. If your company uses bandwidth intensive practices such as file sharing, video conferencing and or advance multimedia then Bonded T1 connections offer nothing less than the maximum bang for your business.

Let VoIP Dialing help you choose the right internet service for your business.

*Bonded T1 Data Plans*

As Low As

**\$291/month**

Or try our instant pricing tool at [www.optimizedbusiness.com](http://www.optimizedbusiness.com)
